**Board of Fire Commissioners
District No. 9**

PRESIDENT – FREDRICK SILVA

VICE PRESIDENT – PATRICK SAWLER

SECRETARY – RONALD OSBORNE

TREASURER – FELIX V. SALDUTTI

TRUSTEE – ALBERT SCHMIDT

GREETINGS

It is our extreme pleasure to welcome you here on this our Golden Anniversary; and to thank you, our friends, neighbors and fellow firefighters, on behalf of our officers and members for favoring us with your presence.

We have endeavored to provide every possible accommodation for making this a most enjoyable occasion for you, our visiting friends and wonderful neighbors. Your presence here has compounded our happiness; therefore, this day is yours as well as ours and we trust that the outcome of this day's celebration will justify us in our efforts and expectations.

Respectfully yours,

Iselin Volunteer Fire Company No. 1

DEDICATED
to the
MEMORY
of the
DECEASED ACTIVE FIREMEN
of
ISELIN VOLUNTEER
FIRE COMPANY NO. 1

ALVAH ENFIELD	1934-1963
JOHN B. OTT	1957-1963
HUGH J. McCABE	1953-1964
WILLIAM WHALEN	1945-1964
KARL S. HENSCH	1966-1967
FRANK E. COOPER	1923-1970

HISTORY

ISELIN VOLUNTEER FIRE CO. NO. 1

Early in 1921, a group of 40 citizens became concerned about the need for adequate fire protection. They met at what the old timers remember as the Iselin Inn, which still stands today as Flip's Tavern, to form a volunteer fire company. The meeting was also attended by members of the Avenel Fire Company who supported the effort not only with advice and donations, but with a hand drawn chemical cart.

The first step to organize a fire company was to obtain funds for chemicals and to build a firehouse, so a flyer was circulated among residents to notify them of plans to establish a fire company and obtain necessary funds. On October 26, 1921, a meeting was held at the home of a neighbor to draw up a petition to incorporate a fire company; and, in 1922, the Iselin Volunteer Fire Company No. 1 was born. On January 31, 1923, at the meeting of the Township Committee, the resolution to create Fire District No. 6, including Iselin and parts of Colonia, was passed. The same year a five-man Board of Fire Commissioners was elected and the amount of \$1,500.00 was appropriated. Now, they could build a new firehouse and purchase a new 1923 Clinton Chemical Hose Truck.

When the original Fire District No. 6 was formed, a situation came into existence that troubled the residents on the west side of the Pennsylvania Railroad. A fire truck could not get to their side of the grade crossing at the intersection of Oak Tree Road and the old Lincoln Highway if a slow freight were passing through. So they drew up a petition, and on October 11, 1924, Fire District No. 6 was abolished and Districts No. 9 and No. 11 were formed. Sometimes later, the grade crossing was improved to an underpass.

HISTORY

Iselin Volunteer Fire Co. No. 1

(Continued)

With the building of the firehouse, which is built on the same site as the First Presbyterian Church, which burned down, the need for an alarm system was realized. An old railroad rail was bent to form an iron ring, and when it was struck with a sledge hammer, its clang echoed throughout the countryside, alerting the firemen. The "Iron Ring" was used until 1925, when a siren was purchased and placed on top of a tower in back of the firehouse. This is the same siren which we hear when school is called on account of snow.

Throughout the following years, changes took place rapidly as the population of District No. 9 grew. The need for bigger and more modern equipment became evident as new homes were built and businesses moved into the area. And so, in 1936, a new American LaFrance 500 GPM Pumper, Engine No. 1, was purchased, and the old Clinton was retired from service. In 1953 a 1934 Ford Utility Truck, Old Number 2, was added to help carry the equipment.

Now the little firehouse had become outgrown and the volunteers worked to expand it to accommodate the new apparatus. A new truckhouse was built in 1952 alongside the original firehouse which was converted into a recreation room where the firemen could gather when they weren't working or fighting fires. In 1959 the building was expanded further to include a hall where social and civic groups could meet. Dances and weddings were held there including the firemen's Installation dinners. The new addition made room, in 1954, for a new American La France 750 GPM Pumper, Engine No. 3, and, in 1959, when a TASCOS International GPM Pumper, Engine No. 2 was purchased, Old Number 2 was retired.

HISTORY

Iselin Volunteer Fire Co. No. 1

(Continued)

As the population continued to grow and new highrise buildings were constructed, the firemen were faced with still another problem — to scale the heights of these modern structures. The answer came in 1964, when the fire company received an American La France 75 foot 750 GPM Quad Mount Aerial Ladder. When this big, new fire-truck was delivered, faithful old Engine No. 1 was retired

A new and much larger siren was placed on top of a pole on Gill's Lane near the Mt. Lebanon Cemetery. Its clear, penetrating wail alerts volunteers to many a fire call. The Board of Fire Commissioners supplied the firemen with Plectron Units for their homes which work in conjunction with the siren.

But fire fighting is only one phase of protection. The Board of Fire Commissioners created the Bureau of Fire Prevention and appointed an inspector to enforce a strict code. His job takes him to schools and businesses to educate people to be aware of potential danger. He tells them how to act in case a fire does erupt and how to call in the alarm. He also investigates after a fire to discover the cause and prevent it from happening again. Many businesses, industries and schools have an alarm system which is directly connected to the firehouse system, thereby speeding up the process of alerting volunteers.

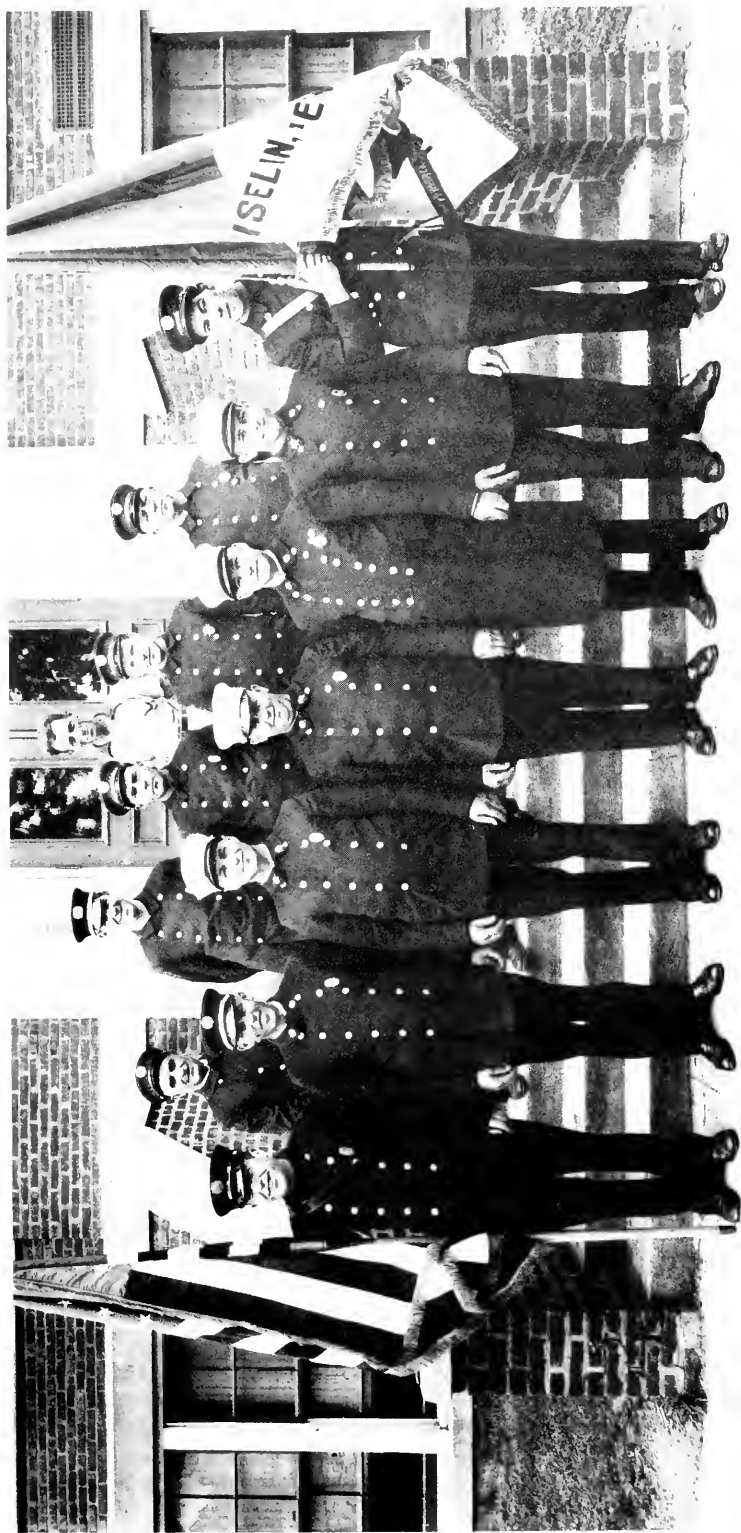

Even now, plans are being made to enlarge the firehouse further, and to purchase more modern equipment with which to protect the residents and businessmen of the area. What will be next — computerized fire engines? — instant detection?

A far cry indeed from the hand-drawn Chemical Cart, the "Iron Ring" alarm, and the one-bay firehouse of yesteryear. . . .

OUR THANKS . . .

To our many friends who have assisted and aided us to make our celebration the huge success that it is, we would like to take this opportunity to express our gratitude.

To those fire companies that participated in our anniversary celebration, we thank you.

To the many advertisers, and boosters who took space in our "Souvenir Journal," we thank you for your financial support.

To those men, women, and boys who served as judges, marshalls, and aides, we sincerely thank you for a great job well done.

To our Ladies Auxiliary, we cannot find the words to express our gratitude for your unselfish help.

To the Iselin First Aid Squad, and the other First Aid Squads who maintained first aid stations for the safety of all of us, our earnest and sincere thanks.

We thank the Board of Fire Commissioners, the officers and men of the Woodbridge Police Department, and the Department of Parks and Recreation, without whose help we could not have been able to undertake an event, of this magnitude.

To the many civic groups and organizations who unselfishly donated their time working behind our stands serving our many guests.

To Monsignor Wilus for donating the use of the church fair grounds and parking lots; to all the clergy, our many thanks.

To the people of Iselin, for your kind consideration, co-operation, and generous support in helping us to celebrate our 50th Anniversary of the Iselin Fire Company.

We thank you one and all . . .
